

Speech of Md. Sabur Khan at Daffodil Captain Cup Golf Tournament 2019

On behalf of our Daffodil Family, I am honored to welcome you all at the Award Night of Daffodil Captain Golf Cup Tournament. This is the third season of our Joint effort with KGC and I am sure with the Professionals performance by the respected KGC member, we are sure you have all been witnessing an exciting and competitive tournament.

The success of this tournament is a testament of your support and belief in our vision to transform Golf in Bangladesh by catapulting our Professional Golfers from the 'golfing wilderness' to the heights of excellence.

One simple question I face several times why Daffodil is with Golf?

I personally like to play Golf! I was passionate about this play and then I created a Golf Ground at my University. Our effort is to create more avenues through which we can prove our excellence as a nation. So besides our strong commitment to creating talents in other sports areas, we have chosen Golf! We believe, no game can surpass golf because the game has nothing to do with age and fitness can be fully kept through the regular playing. Also, we believe in the words that "The game of golf is all about ethics and tradition". So we want to see another dream for the country. Bangladesh to be named among the best golf playing countries! I know it's not a nightmare for us!

We have witnessed, during the past years a few good things have happened in the country's golfing arena, not just on the field, but off it as well.

These success stories kept our interest firmly in the game and its heroes. The Bangladesh Golf Federation and the KGC, on their part, kept the good work by grooming the talents and making the administrative side of the game more professional. Daffodil Family as part of its commitment to do nation-building at the best possible way felt the confidence in Golf and we believe we can uphold the National Flag through extending our hands here.

So we came forward and shared our vision with you and you believed in us by contributing in a variety of ways to the success of this tournament. At this point, I thank KGC for allowing us to work here in this field for the third time. It was an excellent experience for the organization! Season 1 and 2 have been a great success and this year we are witnessing a beautiful bonding between us. I believe this effort will be continued in the future.

Through the effort, we want to create a patient, focused and well fit generation.

I would like to offer my congratulations to all the players in this tournament. The talent and professionalism you have shown is a credit to you all. Finally, I would like to thank our Patrons for their support.
